

IT INFRASTRUCTURE

Madrid Marriott Auditorium has two main F.O. Internet lines.

Vodafone, 1000 Mbps symmetric internet line.

Movistar, 900 Mbps symmetric internet line.

Also has three FTTH Movistar 300 Mbps symmetric internet line as backup lines.

Over these providers we offer several services:

WIRELESS CONNECTIONS:

- Free Wi-Fi access.

Marriott_Guest

All over the hotel "Marriott_Guest". Internet bandwidth shared with the rest of free Wi-Fi guest.

**Note: Hotel free WIFI "Marriott_Guest" use 900 Mbps Movistar internet fiber line.*

**Note: Bandwidth availability depends on occupancy and users network use.*

· Private Wi-Fi.

A personalized SSID "Your_name" with password "Your_password" (minimum 8 characters) over a dedicated internet access with a guaranteed speed. Dedicated VLAN. No landing page.

**Note: Private WIFI (Vanity SSID) "Your name" use 1.000 Mbps Vodafone internet fiber line.*

Common Price options:

- **Option A:** Private SSID with 100 Mbps symmetrical internet bandwidth 300€ + VAT**
- **Option B:** Private SSID with 200 Mbps symmetrical internet bandwidth 500€ + VAT**
- **Option C:** Private SSID with 700 Mbps symmetrical internet bandwidth 1.200€ + VAT**
- **Option D:** Private SSID with 1000 Mbps symmetrical internet bandwidth 1.500€ + VAT**

No customers provided Access Points are allowed without Madrid Marriott Auditorium approval to avoid signal interference with Congress Center Wireless infrastructure.

If customers plan to deploy his own AP allow 20 days prior event to engineer a cohesive solution without interference.

WIRED CONNECTIONS:

· Public IP.

A public IP address in a high speed wired connection directly against ISP Cisco router. No DHCP. Suitable for streaming/webcasting, customers own Firewall/routers servicing dedicated VLAN. Low latency internet connection. Limited Public IP Addresses available. Every fixed IP address only for one device.

· **Option A:** Internet fiber with 100 Mbps symmetrical internet bandwidth 300 € + VAT**

300€ + VAT each Public IP Address.

· **Option B:** Internet fiber with 1.000 Mbps symmetrical internet bandwidth 1.500 € + VAT**.

**Public static IP is valid for just one device, and configuration data will be provided at your arrival.*

**This configuration implies that customer is full responsible for security.*

· Private IP.

Private VLAN, DHCP and Firewall enabled. Available in meeting rooms and common areas.

· **Option A:** 40 Mbps symmetric internet connection per VLAN: 50€ + VAT.

· **Option B:** 80 Mbps symmetric internet connection per VLAN: 100€ + VAT.

· **Option C:** 100 Mbps symmetric internet connection per VLAN: 150€ + VAT.

· **Option D:** 200 Mbps symmetric internet connection per VLAN: 300€ + VAT.

**Any of the previous options include one wired ethernet connection.*

**Additional wired Ethernet connection 40 € + VAT each drop.*

We can deploy any combination of these services you need.

Do not hesitate to contact it.department@hotelauditorium.com should you have any other requirements for your event.
